Milwaukee, Wisconsin: Koss Corporation (NASDAQ SYMBOL: KOSS), the U.S. based high-fidelity headphone company, has reported its third quarter results for the quarter ended March 31, 2017.

Sales for the third quarter were \$4,773,915, which is a 20.5% decrease from sales of \$6,002,059 for the same three month period one year ago. The three month net loss was \$1,117,582, compared to net income of \$869,686 for the third quarter last year. Diluted and basic loss per common share for the quarter was \$0.15 compared to income per common share of \$0.12 for the three month period one year ago.

"Sales were weak in the quarter with continued decrease in orders from distributors in Asia and Scandinavia as well as lower demand for the OEM products in Asia. The lower order volume is driven by distributors working off inventory levels as well as the continued strength of the dollar," Michael J. Koss, Chairman and CEO, told employees here today. "Earnings were negatively impacted by the low export sales and a charge to earnings to write down the inventory value on a group of products."

In the three months ended March 31, 2017, a valuation allowance was established against deferred tax assets resulting in a charge of \$444,000 to income tax expense. The net income for the three months ended March 31, 2016 included the benefit of settling a lawsuit.

Sales for the nine months ended March 31, 2017, decreased by 5.1% to \$17,810,418 compared with \$18,762,662 for the same nine month period a year ago. Nine month net loss was \$893,259 compared to net income of \$1,155,513 for the same nine months last year. Diluted and basic loss per common share was \$0.12 for the nine months ended March 31, 2017, compared with income of \$0.16 for the same nine month period a year ago.

In the first nine months, sales to the OEM customer in Asia combined with improved sales to domestic distributors partially offset the decline in sales to distributors in Scandinavia, Asia and Africa. In the domestic market, Koss also had increased sales through on-line retail.

"While traditional brick and mortar retail continues to be a key component of our distribution, we are fully aware of the sweeping changes happening in traditional retail that will continue to have a negative impact on headphone offerings as more retail outlets close stores," Koss continued. "Our direct to consumer initiatives are designed to make our products easier to access than ever before by using the on-line channels that consumers around the world are choosing now more than ever."
